

# VIDEO ECO TOURS FOR YOUR CLASS

Thanks to a new ecoliteracy grant, the Georgetown County Library has a unique field trip idea for your students!

1. We come to your school to teach basic video production
2. We pay for transportation and entrance fees to nature sites
3. We help kids videotape themselves as they explore the site
4. We edit their footage into a cool mini documentary

If this might tie in with what you're teaching this year, contact us for details: (843) 318-4930 or [hpelham@gtcounty.org](mailto:hpelham@gtcounty.org)
